BRINGING THE WORLD TOGETHER

THE GATHERER

INAUGURAL QUARTERLY REPORT

DATED: JULY 1, 2024

A WORD FROM THE PRESIDENT

"Watching the growth of Family History Research expand throughout the world has been a true joy of mine. The thought that every person may one day have sufficient information to research their own family tree gets me up in the morning and brings a smile to my face. Every Name Counts Inc. was established to do just that by entering the final frontier of untapped vital records in the country of India and the rest of the world. Our goal is to open every record vault to digitize and index its contents so that this vision can be realized. We ask you to join Every Name Counts Inc. in funding this great venture and helping us "Seize The Day!" in donated funds! So, with thankful hearts we express our most sincere appreciation to all of you that are making this dream into action! Sincerely, Ken Wilson

AKARSH RAVIKUMAR, A MAN OF MANY TALENTS

Akarsh, Ravikumar is the official Operations Manager of Vital Records Pvt Ltd of India, Akarsh has always felt the need to encourage people in his native country to research their own Family History. This hope first began back in 2018 when he and his partner Ken Wilson approached the department of National Records in New Delhi. While meeting with the Prime Minister's Secretary and (the late) Union Minister HN Ananth Kumar revealed that they had just passed a nationwide bill that would permanently close all access to the Government Record Vaults of India. This news was devastating for his dreams would have to be shelved for the time being until just recently when another avenue revealed itself for a different way to go about providing family history records to India Nationals; The Hindu Pilgrimage Records!

ENCI ANNOUNCES NEW "BRAND FILM" PRODUCTION

We are excited to announce production has begun on the Every Name Counts Inc. Brand Film! This promotional film is poised to touch people's hearts and help them understand our mission and what we hope to achieve with our donated funds. The screen play explores our need to connect to our family history roots, and how Every Name Counts Inc. is committed to digitizing the record vaults of Pandits all over the country of India. One of our "On-location" filming sites will include Pandit locations in the Makesh Badrinath region of India nestled at the base of the Himalayan Mountains. This specific Pandit we've approached and are currently in the process of digitizing and indexing his archive is from this region. Our current plan is to complete our filming, and final editing by the end of the year!

Pandit Trains Vital Records Pvt Ltd Management Team On Difficult Sanskrit Language"

of how his project would execute and a solid plan to help him succeed.

The day was bright and cheerful as Vital Records Pvt Ltd. welcomed the visiting Pandit to their main office location in Mysore India. They were honored to give him a tour of our facility and introduce him to our Digitization Team and the equipment we would be using. Part of his visit was dedicated to introducing him to CVR's computer processing capabilities and allow him time to formally train our Indexing Team. He left with a full understanding

Since the majority of his time was spent instructing our CVR Team with his knowledge of the Sanskrit language (that holds the majority of the notations found in the books of his family history archive,) his knowledge was invaluable in instructing CVR to the complexities and nuances found in his book inscriptions. With this knowledge we are excited to help him build a digital record of his archive and create for him a program that he can use to build a Family Tree for his constituents."

PANDIT AGREES FOR ARCHIVE DIGITIZATION

These record custodians are referred to as Pandits and have for centuries been also capturing family history information as they perform last rites for their Hindu deceased. Many of these Pandits have captured their respective India Surname or Surnames for over 400 years. Because Akarsh is a native and part of an Indian "caste" that allots him great respect and privilege in his country, he decided this route would be best to fulfilling his dream to open record vaults for Family History Research in India. Since then, Akarsh, has had much success when meeting with Pandits. His magnetic personality and influence has made it possible to convince Pandits that there is a better way of processing their records and computerizing their archives to preserve their ancestral heritage from deteriorating manuscripts. All we need is funding to continue these efforts from one Pandit to the next!

CURRENT CAPITOL CAMPAIGN INITIATIVES

- 01** Fund the digitization of Pandit Number First's Record Vault and digitize images for Vital Records Pvt Ltd record bank. Donor Recognition plaque at Pandit House in India. Fundraising Amount: \$10,000.
- 02** Fund the completion of the Every Name Counts Inc. 2024 Brand Film for Fall release and distribution date. Donor Recognition to roll in Film Credits. Fundraising Amount: \$10,000."
